

Let's talk about CPCs...

...and what you
need to know
about them

Crisis Pregnancy Centers pose as women's health centers. There is a national call to call these centers fake health clinics.

Advocates for CPCs call these centers
Pregnancy Help Centers, but they
actually provide deceptive
information to pregnant women.

CPCs provide free services, such as sonograms, pregnancy testing, & maternity and child supplies. They also provide adoption, parenting, and abortion “counseling”.

CPCs are anti-choice. CPCs provide false information about contraception, abortion, and pregnancy, with the goal to dissuade patients from getting an abortion and using contraceptives.

Many CPCs do not have licensed medical professionals working within them. They focus on promoting an anti-choice agenda via counseling, rather than the facts about medical procedures.

All information above was taken
from NARAL Pro-Choice Maryland
and the Guttmacher Institute.
